

OGP Pilot
18908

Altimeter Abnormal Load Escort

Key benefits

- > Set consisting of: Control console, wiring and measuring sensor.
- > Determination of bridge spans and other obstacles (utilities, trees, etc.)
- > Displays warning during accompanying transport guidance.
- > Measuring height up to 6.5 and 7m from the ground floor (roof height vehicle 1.5 to 2m)
- > Measuring range sensor up to 5m

characterize

- > Only 1 measuring sensor required
- > To be placed on the roof
- > Continuous measurement of height
- > Overrun gives alarm signal
- > Expansion possibilities:
 - o Bluetooth Android app
 - o Visualization exceptional transport
 - o Magnetic foot

Specifications

- > 12VDC supply voltage
- > Accuracy up to 1cm
- > Backlighting
- > Language
- > Adjustable sensitivity in case of rain disturbance
- > Adjustable alarm height
- > Adjustable warning height
- > Improved calibration
