

North American Signalisation

Q350-B

Summary

The North American UL Listed Micro-Burst Series Strobe Warning Light is designed with a combination of cutting-edge and highly-developed circuitry and a durable housing. It operates at 12/48V with a rated current of 0.1 to 0.75 amperes.

Benefits

- > Flange base mount
- > State of the art circuitry
- > Sonic welded Blue housing
- > Sealed to keep out dirt and moisture
- > Protect against shock and vibration
- > XENON Technologie
- > UL-listed

Specifications

- > Operation Voltage: 12/24VDC
- > Rated Current: 0,8A
- > Flashes per minute: 65 QF
- > Light output: 500 candelas per second
- > Output Energy: 5,25 Joules
- > Height: 4 inch
- > Diameter: 4,6 inch
- > Weight: 4 pounds
