

TOP112 Power module with Handheld P0050F0025

Centralizing System With Handheld console

Key benefits

- > Easy installation
- > Equipped for controlling all electrical devices
- > Completely independent of existing electrical wiring
- > CANbus J1939 link

Features

- > Negative mass (housing)
- > 2 supply voltages possible
- > Automation and specific functions
- > Fully Programmable
- > 1 TOP112 Power Module
- > 1 PolyPM handheld (4m spiral cable)
- > 1 IC Adapter version A interface
- > 1 bus cable 2x RJ45(8 meters long)
- > Error recognition by monitoring
 - Open load
 - About load
 - Short Circuit
- > Battery safe and protected
- > No additional relays or fuses required
- > Reverse polarity protection
- > 20 tones for speakers (Vibrato/Night)
- > Compliance: E13*10R04 13307
- > IP66

Specifications

- > Operation Voltage: 12VDC
24VDC
- > 8 static positive outputs (20A)
- > 2 static independent negative outputs (0.8A)
- > 2 positive and 2 negative inputs
- > 2 outputs for speakers (2x 100W/11.0Ω)(25 tones)
- > 1 analog input for horn
- > Ambient temperature -25°C to +60°C
- > TOP112 Power Module:
 - Weight 612g
 - Dimensions 177 x 105 x 45 mm
- > Handheld
 - Weight 132g
 - Dimensions 122 x 54 x 37 mm (without foot)
- > IC Adapter version A interface
 - Weight 20g
 - Dimensions 49 x 28 x 23 mm
